In our discussion of 31 October we decided that restructuring the secretariat would be deferred until after the report of the HLC, and that even the provisional working arrangements discussed with staff would be deferred until at least April, 1991, pending completion of JIWP-WARC92 work.

I hope that you can accept to continue to serve as Assistant Director, as we have begun for a few months, in addition to your duties as Department Head. We can agree on specific tasks as we go along, depending on requirements and your other commitments, but it amounts basically to serving as my Deputy and acting for me in my absence.
