Professor R. G. Struzak
Senior Counsellor, CCIR
2, rue de Varembe

1211 Geneva 20

Dear Dick:

Thank you for your letter dated 17 January 1985 by which you formally advise your relinquishment of the Vice Chairmanship of CCIR Study Group 1 (Spectrum Utilization and Monitoring) in connection with your acceptance of the position of Senior Counsellor in the CCIR Secretariat.

I have already welcomed you warmly to the ITU Headquarters and expressed my great pleasure and confidence in your joining the CCIR Secretariat.

It remains for me to express personally and on behalf of CCIR, great appreciation for your outstanding contributions for more than a decade as Vice Chairman of Study Group 1. During this period, you were not only an active co-leader of CCIR work in spectrum utilization, but your own professional activities, reputation and enthusiasm in this field served as an inspiration to many CCIR colleagues. It was typical of your energetic involvement that, while concerned with Study Group 1 broadly, you personally led the work of Interim Working Party 1/4 on Industrial, Scientific and Medical equipment.

While Study Group 1 must seek a replacement for your active role, I am glad that your new post offers even more scope for contribution to the work of ITU.

Thanks and best wishes.

Yours sincerely,

Richard C. Kirby
Director, CCIR
